ON WAR

The campaign has climbed an escalation ladder, from military targets to economic targets (Aramco, Yanbu), to symbolic targets (the Riyadh power station serving the Prophet's Mosque), and now to civilian aviation and the capital. King Khalid International Airport has been hit or targeted on 19 Sep, 5, 7, 8, 9, and 10 Oct; the 19 Oct strike is the first to halt civilian flights. The Houthi Supreme Political Council has said it will "not stop" attacks on Saudi international airports. Each step raises the reputational risk to the Kingdom more than the military cost.
