WHAT CHANGED IN THE LAST HOUR

Riyadh still halted since 11:28 PM Sunday (4,150 min at 8:00 AM). Dammam reopened after the 5:14-6:59 AM halt. SVFR limited 6:59 AM-11:00 PM; IFR still off. FIZ still live, but no traffic Dammam takeoffs. No new attacks, interception or Civil Defense alert from official Saudi accounts since the Eastern Region drone intercept, 1:43-5:59 AM.

ESCALATION PATTERN: MONTH-STRIKES ON USA BY TARGET TYPE, 8 SEP – 14 OCT

Monthly totals since 8 September (20 confirmed). Latest: Coalition 1,043 intercepted and destroyed in Eastern Region (1:43-5:59 AM); [coalition statements](#). Prior: 2 Riyadh airport strikes (drone debris, 25 Sep and 3 Oct); 1 Dammam airport strike (drone debris, 9 Oct); 1 Eastern Region strike (drone debris, 14 Oct). Civilian casualties: 1 confirmed (debris); 1 claimed, unverified. Civil Defense alerts: 4 since 8 September.

SO WHAT

The campaign has climbed an escalation ladder: from military targets to economic targets (Aramco, Yanbu'), to symbolic targets (the Riyadh diplomatic district) and to the Prophet's Mosque, and now to civilian airports and the capital. King Khalid International Airport has been hit or targeted on 19 Sep, 3, 7, 8, 10 and 11 Oct; the 10 Oct strikes damaged the runway and a fuel tank. The 14 Oct strike was the first to reach the Eastern Region, 1,043 km from Yemen. Each jump raises the reputational cost to the Kingdom more than the military cost.

2 Riyadh still halted; Dammam moving after 5:14-6:59 AM halt; no new official attack since Eastern Region drone

Thursday 8:54 AM, Riyadh time, 250 min after Dammam reopened at 5:14 AM. Drone intercept: Eastern Region, 1:43-5:59 AM.

6 What the numbers are, and are not.

Riyadh airport has been halted and landing counts, cancellations, diversions, charts, traffic ranks from the Flightradar24 BLACK and DMM boards fetched at 8:54 AM, all pages for the full day. Flightradar24 is an unofficial aggregator, not a GACA or airport feed, and may miss or delay a flight. Each chart's footer names its source.

- Halts are computed per airport from the boards: any gap of 45 minutes or more with no takeoff or landing. Dammam's 5:14-6:59 AM halt is the only one in the last 24 hours. Riyadh's halt since 11:28 PM Sunday is still open. Diversions at a halt on the last 5 boards, and the 1 diversion today, are shown.
- Escalation events come from strikes.json, each has a source link. Economy data are tagged: Flightradar24, 8 to 11 days, Flightradar24 board, 1 day, Official, Saudi or Civil Defense alert, Unverified, single-source claim. The Brent futures quote is near-real-time.
- Confidence tags: CONFIRMED = official statement, multi-source or directly checked; CORROBORATED = multiple independent reports consistent with board data; UNVERIFIED = single or social reports not confirmed by official entity. Claims are attributed to their source.
