SO WHAT

Riyadh's airport has climbed an escalation ladder from military targets to economic targets (Aramco, Yanbu), then to Riyadh's civilian airport. Each step has been met by a new warning from the Prophet's Mosque, and now by civilian aviation itself. Capital. King Khalid International Airport has been hit or targeted on 19 Sep, 5, 7, 8, 10 and 11 Oct; its 9-10 and 11-12 Oct strikes closed it indefinitely. On the evening of 16 Oct, Houthi drones struck Riyadh's civilian airport at Dammam's King Fahd International Airport. Each rung raises the reputational cost to the Kingdom more than the military cost.
