Saudi Airports Status

Operational status for Saudi Arabia's major airports, Saturday 24 October 2026, Riyadh time (UTC+3)

Riyadh airport: **Normal** · Jeddah airport: **Limited** · Dammam airport: **Disrupted** · 5 cancelled

Status reflects conditions at 06:00 Riyadh time. Limited = reduced capacity or delays; Disrupted = significant cancellations or closures.

1 What is happening now, at both airports and across the Kingdom.

RIYADH AIR

Riyadh airport halted since 6:28 PM Sunday 11 Oct, 16,500 minutes at 12:00 PM, NOTAM A0358/26

Riyadh airport (RUH) has been closed since 6:28 PM Sunday 11 October 2026 (Riyadh) and will remain closed until 12:00 PM Friday 16 October 2026 (Riyadh), a total duration of 16,500 minutes. The closure was issued by Saudi Arabia's General Authority of Civil Aviation (GACA) as NOTAM A0358/26 and cancels all 412 flights scheduled to operate during that window.

Riyadh Air, which operates its hub at RUH, has moved all operations to Dammam airport (DMM) and Jeddah airport (JED). Riyadh Air's chief operating officer Tareq Al-Hamdan said the airline had begun relocating aircraft and crews on Monday 12 October and that the move was "substantially complete" by the time the closure took effect. Riyadh Air has not announced when it expects to reopen at RUH.

Riyadh airport handled 31.4 million passengers in 2025, making it the busiest airport in the Kingdom by a wide margin. The closure is the longest single-airport shutdown in Saudi Arabia since the COVID-19 suspensions of 2020 and 2021.
