SO WHAT

The campaign has climbed an escalation ladder from military targets to economic targets (Aramco, Yanbu), then to symbolic targets (the Riyadh power station opening the Formula 1 weekend), and now to civilian aviation and the capital. King Khalid International Airport has been hit or targeted on 19 Sep 5, 7, 8, 10 and 11 Oct, the 10–11 Oct strikes damaged the runway and forced a 24-hour closure. Each step has been met with a larger air defence response. Iran's Houthi proxy in Yemen has separately struck Jeddah and Yanbu in the same period.

Monthly, lagged about two months. Saudi crude exports and refinery throughput are reported by the Joint Organisations Data Initiative (JODI) and EIA International Energy Statistics, with a roughly two-month publication lag. Daily cargo estimates based on vessel tracking are better-tracking leading indicators.
