EN WHAT

The exchange has climbed an escalation ladder: from military targets to economic targets (Aramco, Yanbu), then to symbolic targets (the Makkah prayer station serving the Prophet's Mosque), and now to civilian aviation and the capital. King Khalid International Airport in Riyadh is the closest civilian airport to Al Kharj (about 80 km); Prince Sultan is closest it. Indefinitely. On the evening of 11 Oct, GACA confirmed a further attack on Dammam's King Fahd International Airport. Each one has triggered a new escalation rule in the Kingdom more than the military could.
