WHAT

The campaign has climbed an escalation ladder from military targets to economic targets (Aramco, Yanbu), then to symbolic targets (the Makkah power station during the Prophet's Hijrah), and now to civilian infrastructure and the capital. King Khalid International Airport has been hit or targeted on 19 Sep, 3 Oct, 8 Oct, and 14 Oct; the 13 Oct strikes caused a nationwide, de facto ground stop. 14 Oct marks the first confirmed strikes on Dammam's King Fahd International Airport. Each step raises the reputational cost to the Kingdom more than the military cost.
