WHAT

The campaign has climbed an escalation ladder from military targets to economic targets (Aramco, Yanbu), then to civilian infrastructure (Riyadh airport) and now to the capital during the Prophet's Mosque, and is now to civilian aviation and the capital. King Khalid International Airport has been hit or targeted on 19 Sep 5, 7, 8, 12 and 13 Oct; the 13 Oct strikes damaged the runway and forced a 72-hour closure. Houthi-controlled Sana'a International Airport is also closed. Each ramp raised the reputational cost to the Kingdom more than the military cost.

2 Riyadh still shut; Yemeni government forces report 2,200 strikes on Houthi positions
