SO WHAT

The campaign has climbed an excellent route from Formula 3 and Le Mans to endurance racing's biggest arena, Hatsu, that its driver lineup has been assembled with real thought, and that the team has the budget to do it properly. What it has not yet had is a result. Sunday's race is the first time the car will start from the front row, the first time it will lead a lap, and the first time it will be in contention for a podium. That is a long list of firsts for a team in its second season.

Every attack, interception, Civil Defence alert and all-clear, debris fall and casualty report since 3:00 PM.
