ESCALATION PATTERN: HOUTHI STRIKES ON KSA BY TARGET TYPE, 8 SEP – 11 OCT

20 sourced events since 8 September (14 confirmed). Latest: Coalition: Houthi ballistic missile intercepted and destroyed in Al-Kharj province (11 Oct, [Coalition spokesman / SPA](#)). Each event has a source link in strikes.json and on the website. Filled = confirmed officially; amber = reported by credible media; hollow = claimed only (Houthi or unattributed). Events without a source are not plotted.

SO WHAT

The campaign has climbed an escalation ladder: from military targets to economic targets (Aramco, Yanbu), then to symbolic targets (the Madinah power station serving the Prophet's Mosque), and now to civilian aviation and the capital. King Khalid International Airport has now been hit or targeted on 19 Sep, 5, 7, 8 and 10 Oct; the 10 Oct strike closed it indefinitely, and a projectile fell near Dammam's airport the same evening. Each rung raises the reputational cost to the Kingdom more than the military cost.

2 Airport halted since 8:10 PM, 410 minutes; GACA 12:46 AM: 12 dead, 309 injured; Coalition: terrorist act, decisive response; NOTAM A3586/26 still AD NOT AVBL through Sunday 2100 UTC; Al-Kharj intercept overnight.

SAUDI CRUDE OIL EXPORTS, JODI MONTHLY AVERAGE (MILLION BARRELS PER DAY)

6 METHOD AND LIMITS

What the numbers are, and are not.

- Airport figures (last takeoff and landing, counts, cancellations, diversions, charts, halts) come from the Flightradar24 RUH and DMM boards fetched at 2:58 AM, all pages for the local day. Flightradar24 is an unofficial aggregator, not a GACA or airport board, and actual times can lag by a few minutes.
- Halts are computed per airport from the boards: any gap of 45 minutes or more with no takeoff or landing. Dammam's status level is set automatically (halted if a halt is open; disrupted if 80%+ cancelled, 3+ diversions or a halt in the last 6 hours) unless set by hand.
- Escalation events come from strikes.json; each has a source link. Economy data are lagged; PortWatch by 4 to 7 days, JODI exports by about two months, EIA spot Brent by several business days; the Brent futures quote is near real time.
- Confidence tags: CONFIRMED = official statement made, or directly checked; CORROBORATED = multiple independent reports consistent with board data; UNVERIFIED = single or social reports not confirmed officially. Claims are attributed to their source.
