AIRPORT FLOW, LAST 24 HOURS

1 Takeoffs and landings per hour, last 24 hours to 12:45 AM.

Recorded takeoffs (217) and landings (191) at RUH per hour over the last 24 hours, from 1:00 AM Friday to 12:45 AM, Riyadh time; the newest bar is the current, partial hour. X marks flights cancelled, at their scheduled time. Gray boxes are halts: 45 minutes or more with no takeoff or landing on the board, kept until they roll out of the window. Daily cancellation totals above are unchanged (local day, midnight to midnight). Source: Flightradar24 RUH departures and arrivals boards, fetched read-only. Halt times from the board (halts.json); dashed line = Flightradar24's X post.

Gray boxes mark halts of 45 minutes or more with no takeoff or landing, worked out from the Flightradar24 board and kept until they roll out of the 24-hour window (clipped at the left edge): Thursday 9:29–10:31 PM, today 5:32–6:24 AM, 1:58–3:14 PM, 4:05–4:50 PM, and 7:41–9:38 PM (no takeoff 7:24–9:38 PM, no landing 7:41–9:45 PM). Today's midday pause (no takeoff 12:29–1:21 PM, no landing 12:44–1:32 PM) was below the 45-minute mark, so it has no gray box.

Airspace now: Airspace maps are not included in this edition: the Flightradar24 live-map capture failed or is out of date. They will return in the next edition if the capture succeeds.

4 What the numbers are, and are not.

- Board figures (last takeoff and landing, counts, cancellations, diversions, Gulf routes, chart) come from the Flightradar24 RUH boards fetched at 12:45 AM, all pages for the local day. Flightradar24 is an unofficial aggregator, not a GACA or Riyadh Airports feed, and actual times can lag by a few minutes.
- The headline cancellation figure is the board count; Flightradar24's stats panel lags it by a few flights. Delayed, on-time, average-delay and index figures are the panel's own.
- Confidence tags: CONFIRMED = official statement made, or directly checked; CORROBORATED = multiple independent reports consistent with board data; UNVERIFIED = single or social reports not confirmed officially. Claims are attributed to their source.
